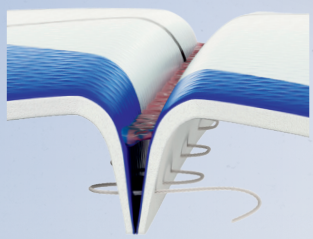
ERIMA HYBRID TECHNOLOGY

Glued and sewn - the best combined! Our ERIMA Hybrid Technology combines the outstanding playing characteristics of a glued match ball with the high durability of a sewn ball.

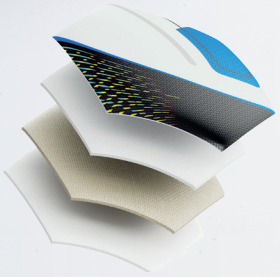
1



EXTREMELY DURABLE AND ROBUST

The panels are deep stitched and additionally thermally bonded - this leads to extremely stable seams that absorb only a minimum of water and dirt.

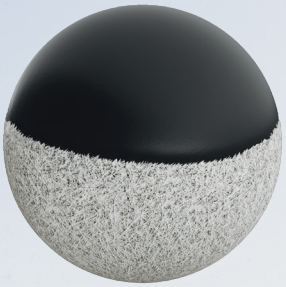
2



MAXIMUM DURABILITY

The specially wrapped bladder ensures perfect roundness and relieves the seams as well as the material.

3



EXCELLENT BALL FEEL AND OPTIMAL POWER TRANSMISSION

This is ensured by the special combination of several layers of particularly soft, durable high-tech foam.

4

PRECISE FLIGHT BEHAVIOR AND BETTER BALL CONTROL

The 3D-structured PU upper material improves grip and aerodynamics.
