sustainability

All textiles marked with this button are made of recycled polyester

All textiles marked with this button are made of sustainable cotton

All textiles marked with this button have been dyed without wasting water.

All packaging marked with this button are certified by the FSC

All articles marked with this button are FAIRTRADE-certified

TEXTILES MADE FROM
RECYCLED MATERIALS

We use recycled polyester in our products made from sustainable materials. Used plastic bottles are collected and processed in a smart recycling process. It is particularly important to us that the bottles are actually recycled and not produced specifically for this purpose.
This allows us to save 32% CO2, 59% energy, and 90% water in the production of our sportswear made from recycled polyester while also reducing waste.

erima®

SPORTSWEAR SINCE 1900

CHANGE TOGETHER — WIN TOGETHER

We are convinced that sustainability is not an individual battle. By working TOGETHER on solutions, we can not only protect the environment, but also promote social justice and achieve long-term gains for the whole team, the whole world.

Want to do your bit?
To make it easier for you, all our sustainable products are labeled with the Change Togehter - Win together seal.

PRODUCT CATEGORIES

TEAM

Fair in price. Strong in play.

The ‚Team' baseline collections are ideal for large clubs. Strong entry-level price while maintaining top quality.

CMPT

Offers team sport lines in the mid-price segment.

Perfect for ambitious recreational athletes who want to be well equipped before, during, and after the game.

PREMIA

Maximum power. Cutting-edge technology.

With state-of-the-art technologies, high-quality materials, and dynamic designs, PREMIA stands for athletes who are only satisfied with the best.

BUTTON OVERVIEW

NEW — These products are new

NEW design — Existing product in a new design

new color — These products are available in new color variants

UNI SEX — These products do not have an additional tailored women's cut. Women should choose one size smaller.

5XL — These products are available up to size 5XL

4XL — These products are available up to size 4XL

CHANGE TOGETHER — These products were sustainably produced

POLYESTER (RECYCLED) — All textiles marked with this button are made from recycled polyester

COTTON SUSTAINABLE — All textiles marked with this button are made from sustainable cotton

COOLING YARN — These products wick sweat to the outside and ensure quick drying and a cool wearing sensation.

DRY DYE WATER SAVING — These products were dyed sustainably.

TECHNOLOGIES

HYDRO TECH

Ultra-lightweight, waterproof, and breathable. Innovative 4-way stretch. Fully sealed seams for added protection in all weather conditions.

COOLING YARN

The two-zone structure yarn effectively wicks moisture away from the skin. It distributes moisture to the outside, accelerates evaporation, and ensures a cool and dry feeling on the skin.

DRY DYE - DYEING PROCESS WITHOUT WATER

Which reduces water and energy and less chemicals consumption by up to 60%.

ERIMA HYBRID TECHNOLOGY

Glued and sewn - the best combined! Our ERIMA Hybrid Technology combines the outstanding playing characteristics of a glued match ball with the high durability of a sewn ball.

ATHLETICS AND RUNNING

erima

The hydrophobic outer fibers ensure rapid evaporation.

COOLING YARN -

QUICK DRYING FOR YOUR TOUGHEST WORKOUTS

The innovative dual-zone structure yarn effectively **wicks moisture away from the skin.** The Cooling Yarn optimally distributes moisture to the outside, accelerates evaporation, and ensures a **cool and dry feeling on the skin.** This function is created by the yarn and not by additional equipment. It remains fully intact even after many washes.

Fully sealed seams provide reliable protection against water penetration.

ERIMA HYDRO JACKET -
YOUR SHIELD AGAINST WIND AND RAIN.

The new PREMIA HYDRO jacket is **ultra-light, waterproof, and breathable.** It consists of a 2.5-layer membrane. Thanks to our innovative 4-way stretch design, this jacket is the most reliable and flexible jacket in the collection. Fully sealed seams provide additional protection in all weather conditions. It is made from 50% **recycled polyester** and is **PFC-free.**

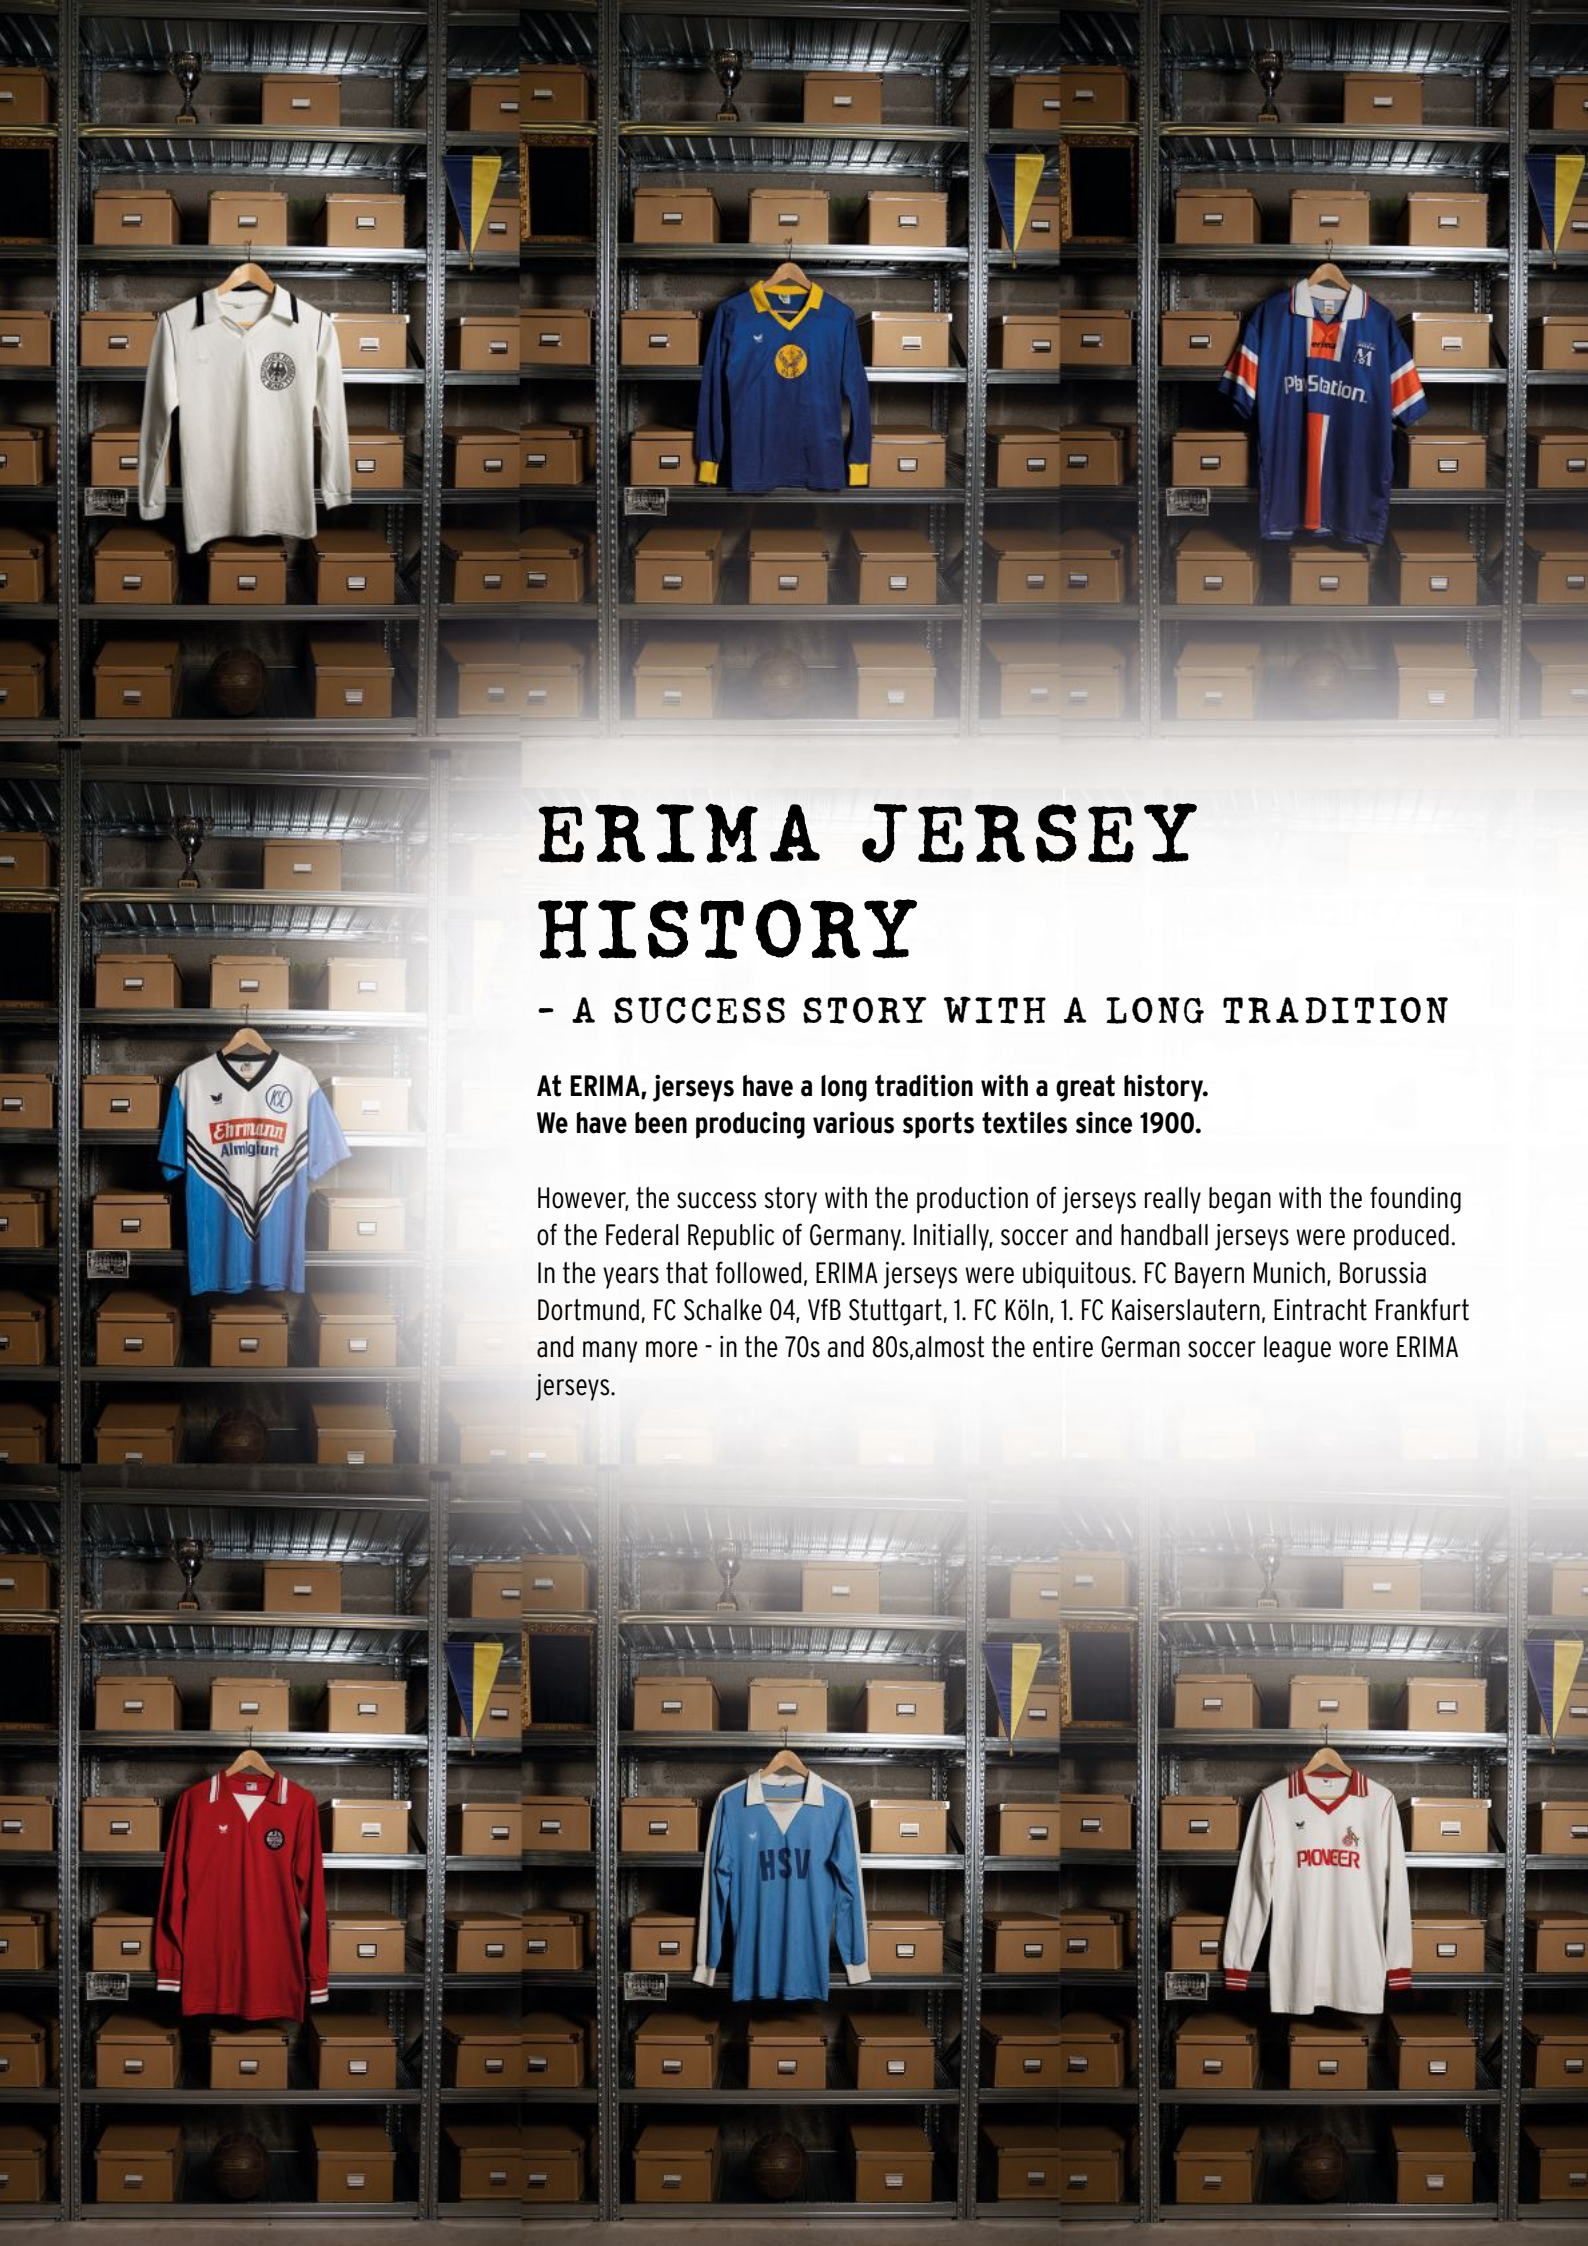
JERSEYS



ERIMA JERSEY HISTORY

- A SUCCESS STORY WITH A LONG TRADITION

**At ERIMA, jerseys have a long tradition with a great history.
We have been producing various sports textiles since 1900.**

However, the success story with the production of jerseys really began with the founding of the Federal Republic of Germany. Initially, soccer and handball jerseys were produced. In the years that followed, ERIMA jerseys were ubiquitous. FC Bayern Munich, Borussia Dortmund, FC Schalke 04, VfB Stuttgart, 1. FC Köln, 1. FC Kaiserslautern, Eintracht Frankfurt and many more - in the 70s and 80s,almost the entire German soccer league wore ERIMA jerseys.

Jerseys are more than just a piece of fabric with a club crest and a number.

Many successful clubs from the German handball and volleyball leagues also went on the hunt for points and titles in ERIMA at this time. In 1973, Eintracht Braunschweig became the first team to wear jerseys - a revolution in professional soccer and an integral part of the game today. The Jägermeister stag adorns an ERIMA jersey. ERIMA is also "up close and personal" with one of the most glorious triumphs in German sporting history.

The German national soccer team with Franz Beckenbauer and Co. win the home World Cup in the jerseys, shorts and socks of the traditional Swabian company.

In the recent past, the ERIMA jerseys were worn for several years by 1. FC Köln, Dynamo Dresden and Eintracht Braunschweig, and the ERIMA logo still adorns the jerseys of many top clubs in the German handball and volleyball leagues, such as Rhein-Neckar Löwen, MT Melsungen and VfB Friedrichshafen. Today, thousands of amateur clubs wear ERIMA jerseys, which are either specially designed for the respective club or come from our jersey collections with a diverse selection of colors and trendy designs.

HAVE YOUR JERSEY DESIGNED

Unique, creative, 100% you!

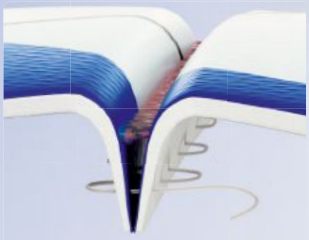
ERIMA HYBRID TECHNOLOGY

Glued and sewn - the best combined! Our ERIMA Hybrid Technology combines the outstanding playing characteristics of a glued match ball with the high durability of a sewn ball.

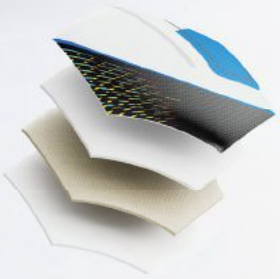
1



EXTREMELY DURABLE AND ROBUST

The panels are deep stitched and additionally thermally bonded - this leads to extremely stable seams that absorb only a minimum of water and dirt.

2



MAXIMUM DURABILITY

The specially wrapped bladder ensures perfect roundness and relieves the seams as well as the material.

3

EXCELLENT BALL FEEL AND OPTIMAL POWER TRANSMISSION

This is ensured by the special combination of several layers of particularly soft, durable high-tech foam.

4

PRECISE FLIGHT BEHAVIOR AND BETTER BALL CONTROL

The 3D-structured PU upper material improves grip and aerodynamics.

MAGIC WHITE

EXTREM GRIP - WITHOUT RESIN

HANDBALLS MAGIC WHITE

MAGIC WHITE PRO

PREMIA CMPT TEAM

- The match version of the Magic White
- Triple shock system ensures extremely soft feel and excellent rebound also with low air pressure
- Even stronger 1.5 mm polyurethane outer material for superb grip – without resin
- Grip that can be regenerated: simply rinse under running water – the ball is quickly clean again and the grip is like new
- Unbeatable play and grip properties also for trick throws
- Reduced size and weight for better handling, meets IHF requirements for resin-free balls
- Barely noticeable seams thanks to hydro stitching
- Natural latex bladder
- Not suitable for pitch use

Sizes: 2, 3 **EUR 69.99***

MAGIC WHITE

PREMIA CMPT TEAM

- Long-lasting, high-quality handball
- High-tech PU for exceptional grip
- Second backing layer made of gel for a particularly soft playing feel, made from recycled PET bottles
- Extremely non-slip and excellent feel for the ball
- Seams are barely noticeable thanks to hydro stitching
- Not suitable for use with resin
- Smaller size and lower weight for better handling, complies with IHF regulations for resin-free balls
- Optimal bounce also with little air pressure
- Perfect play and grip properties also for trick throws
- Latex bladder for optimal bounce

PRINTING INSTRUCTIONS

We generally suggest

- Prints, applications, zippers and seams should not be over pressed.
- It has to be avoided that white and colored fabric get in contact during fixation.
- ERIMA Logos and existing prints have to be covered with paper or thin piece of fabric before printing.
- After print application, fabric must be cooled down completely before further processing.

Transfer Print

- Temperature applied 120°C – max. 150°C (248°F - max. 302°F)
- After print application, fabric has to be cooled down before being removed from the iron plate.
- For white or light colored transfers a silver or carbon backing is mandatory, if used on colored fabrics.
- Always using a rubber anvil in the size of the heat- transfer to avoid that hot heat plate is touching the whole fabric.

Direct Print/Direct Flock

- Only printing links with low temperature fixation must be used. We advice cold wetting glue.
- Fixation temperature 100°C – max. 120°C (212°F - max. 248°F)
- Print fixation time should be below 60 seconds.
- For nylon products:
  Only special glue for nylon must be used. We advise cold wetting glue.
