# ERIMA COLOR CHART

All Pantone colors are available on request.

# MATERIALS

### CLASSIC

Our Classic fabric, made of 100% polyester, is extremely hard-wearing, durable, and easy to wash. The lightweight fabric efficiently wicks moisture away from the body, making it particularly comfortable to wear against the skin.

### **STRETCH**

Our PREMIUM quality fabric is made from a polyester-elastane blend. Designed for intensive use and maximum freedom of movement, this fabric is soft, stretchy, and adapts perfectly to the body for enhanced comfort.

### SENSOR

The three-dimensional weave structure gives the polyester fabric excellent breathability, ensuring comfort even during highly demanding games. Additionally, the fabric is extremely durable and hard-wearing.

### **POWER STRETCH**

A robust yet flexible polyester-elastane blend with a higher weight than our Stretch material. This increased density enhances durability without restricting freedom of movement.

# **POWER STRETCH JERSEY Especially for handball**

# **ERIMA POWER STRETCH TECHNOLOGY IN DETAIL**

# The handball jersey - perfectly tailored to the requirements of the game.

The demands placed on a handball jersey are particularly high, as the strain during the game is often extreme. The new Power Stretch Jersey meets these requirements in full, especially for handball.

- Power Stretch Material: A blend of polyester and elastane provides perfect freedom of movement with every throw and jump.
- Light & robust: Durable and ideal for intensive matches.
- Special handball fit: Follows every movement without being restrictive, developed for maximum performance by players and teams.

- · Round neck made of elastic ribbed material.
- The finish with **sewn-in silicone tape** provides additional elasticity and a perfect fit - ideal for every
- · An elastic, thin band at the back of the neck offers a comfortable fit.

Raglan-Sleeves provide maximum freedom of movement and greater resilience, perfectly tailored to the high demands of handball.

• Our **POWER STRETCH material made of polyester and elastane** offers high elasticity and freedom of movement. Flexible and lightweight material for unrestricted movement on the pitch. Perfect for intensive training and matches.

- · Side seams offset to the back ensure optimal comfort and create space for sponsor logos on the sides.
- · This design detail combines functionality, durability, and individuality.

# MATERIALS

### **POLYESTER**

Our polyester quality is extremely hard-wearing, durable, and easy to wash. The lightweight fabric wicks moisture away from the body, making it particularly comfortable to wear next to the skin.

### COTTON

Our high-quality cotton fabric impresses with its natural softness, breathability, and durability. It offers optimum comfort, is skin-friendly, and versatile-perfect for a pleasant feel and timeless quality.

At ERIMA, we develop all our products for a specific purpose, with a focus on innovation and quality. For easier classification, we have developed three categories into which all items can be placed:

"PREMIA", "COMPETE" & "TEAMSPORT"

### PREMIA

Premia products impress with their innovative materials and high-performance designs. These functional products are designed to improve and maximise the performance of professional athletes by incorporating the latest technologies in research and development.

### CMPT - Compete

The 'Compete' category includes team sports lines in the mid-price segment, created for ambitious amateur athletes. All items are made from high-quality fabrics that are as sustainable as possible. This ensures that athletes are well equipped before, during and after the game.

### TEAM - Teamsport (TS)

The basic lines in the Teamsport category are designed for large popular sports clubs. The items have a very competitive entry-level price while also guaranteeing the best quality. Driven by the potential of the future, we also focus on sustainability here.
