Dear Dealers, Clubs and Teams,

After some difficult years, and with various crises and uncertainties now thankfully behind us, we are confidently looking forward to 2024. We are seeing an upswing in activity in our specialist dealers as well as our clubs and teams, and are eager to get back to working normally together. We are ideally positioned for this - with a highly motivated, highly effective team, our state-of-the-art ERIMA Logistics centre and a new, attractive teamsports collection. This is made in large part from recycled materials.

Our focus is on our strength: 100% teamsports. For us, this includes good support and service, fast delivery and, of course, premium quality. This ensures that we can be the best possible partner for our dealers and customers.

Together, let's rediscover our former strength!

With sporting wishes

Yours

Wolfram Mannherz
Owner and Managing Director

FURTHER INFORMATION

FAIR PRODUCTION

Fair treatment is important to us, not only in sport but also in the way we work with all of our partners. That's why we pay our dealers fair prices. ERIMA is also committed to strictly respecting human rights and protecting the environment. We share with our partners a commitment to high ethical and environmental standards, which we have set out in our Code of Conduct and strive to uphold in our daily operations.

FAIR TRADE

With our ERIMA Hybrid Eco, fair play starts off the football field. The ball is made from sustainable materials and Fairtrade certified.

The Fairtrade labels identify products that have a fair trade origin. Certain social, environmental and economic standards are adhered to in their production. The aim is to improve the lives of those involved in the production. This is achieved, among other things, by strengthening rights and improving income, working conditions, health protection and financial stability. The Fairtrade premium helps to fund projects that improved people's everyday lives, education and health care, for example.

SUPPLY CHAIN

In line with our company motto „GET TOGETHER AND WIN“, we also place great importance on close cooperation with our suppliers. We have been working with them for a long time, which means we know exactly the conditions under which our products are made. We conduct regular visits, which ensures a high level of transparency and enables us to guarantee high quality and fast delivery for our customers. We work on an ongoing basis with our suppliers to make our products more sustainable.

TEXTILES MADE FROM RECYCLED MATERIALS

We use recycled polyester made from sustainable materials in our products.

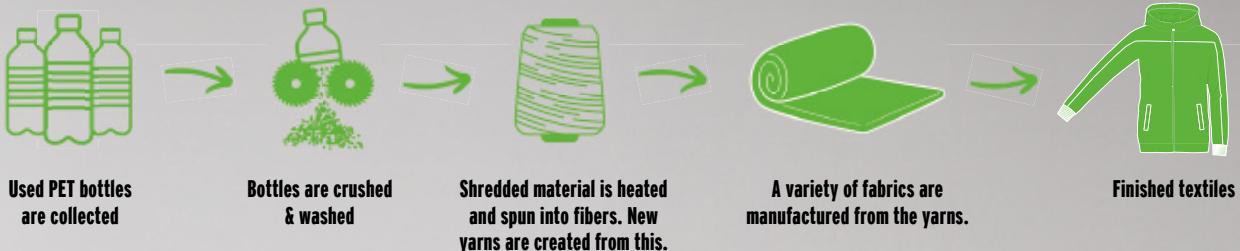

Used plastic bottles are collected and processed in a smart recycling process.

It is particularly important to us that these bottles have been recycled and not specially produced for this purpose. With our sportswear made from recycled polyester, we can save 32% on CO₂, 59% on energy and 90% on water during production, while reducing waste.

All textiles marked with this button are made of recycled polyester

RECYCLING PROCESS

BALLS AND ACCESSORIES MADE FROM RECYCLED AND RENEWABLE MATERIALS

ERIMA not only offers textiles made from recycled materials, but also high-quality balls and other useful equipment. The **Eco water bottle** lets you recharge your batteries during training or matches.

The bottle is made from sugar cane waste, which is renewable material, and is therefore recyclable, food-safe and BPA-free.

You will also find balls made from sustainable materials here, such as the **Pure Grip No. 2 Eco Handball** with an upper made from PET bottles, or the **ERIMA Hybrid Eco Football** made from over 70% sustainable materials and Fairtrade certified. And this year we have introduced our range's first **goalkeeper's gloves**, the **Flex-Ray Match/Eco**, made from recycled and renewable materials.

EVO FLEX SUPERLITE

Even lighter, even better! The further development of our Evo Flex comes with an even thinner material and thus with an even higher comfort. The shin guard combines unbeatable flexibility and maximum shock absorption!

EXTREMELY LIGHT AND ULTRA THIN

Despite a material thickness of only 4.5 mm, the ERIMA HASG material protects against heavy impacts.

ERGO FLEX SYSTEM

Extremely flexible! The material adapts perfectly to your shin due to its extremely high flexibility.

SHOCK FREEZE SYSTEM

Shock absorbing! For controlled shock absorption, the ERIMA HASG material absorbs and dissipates energy.

AIR CIRCULATION SYSTEM

The many ventilation holes in the structure allow natural ventilation and air circulation.

SELF-REGENERATION

Even after multiple impacts, the ERIMA HASG material can still be used. Unlike PU or EPS foams without material damage, because it returns to its original shape.

TEMPERATURE RESISTANT

Impact protection is provided even in extreme cold or heat. The ERIMA HASG material remains unchanged at temperatures from -20°C to +40°C.

EASILY WASHABLE

The material is machine washable and can be washed over 50 times at 40°C without loss of function.

ERIMA HYBRID TECHNOLOGY

Glued and sewn - the best combined! Our ERIMA Hybrid Technology combines the outstanding playing characteristics of a glued match ball with the high durability of a sewn ball.

1 EXTREMELY DURABLE AND ROBUST

The panels are deep stitched and additionally thermally bonded - this leads to extremely stable seams that absorb only a minimum of water and dirt.

2 MAXIMUM DURABILITY

The specially wrapped bladder ensures perfect roundness and relieves the seams as well as the material.

3 EXCELLENT BALL FEEL AND OPTIMAL POWER TRANSMISSION

This is ensured by the special combination of several layers of particularly soft, durable high-tech foam.

4 PRECISE FLIGHT BEHAVIOR AND BETTER BALL CONTROL

The 3D-structured PU upper material improves grip and aerodynamics.

PERFECT FOR EVERY SITUATION

Whatever the weather and whatever the surface - soft and robust even in cold temperatures.

Watch behind
the scenes of
ERIMA

At ERIMA, tradition meets modernity. As the oldest existing German sports brand, we have been setting standards in sports goods and team equipment for 120 years. With our "Home of Teamsport" we have set the course for our future. More than 3.5 million products are stored on over 20,000 m² in the modern ERIMA logistics centre (ELZ). These are mainly available to sports retailers and clubs. With up to 50,000 items per day, a state-of-the-art storage system ensures outstanding delivery capability, reliability and speed. These are the qualities for which we are known and appreciated.

The heart of the logistics centre: The AutoStore system with over 50 robots. These control a total of 150,000 boxes with over 3.5 million products.

The robots transport the boxes to our employees at the ports for commissioning. Around 500 orders are processed there every day.

The advantage: Thanks to automated order combination, large orders are put on hold until they have been fully processed.

In addition to the AutoStore system, there is another storage area: A 20 m high-bay warehouse that offers space for large-volume and bulky goods such as balls, bags or other accessories that do not fit into boxes.
